

**INTERNATIONAL CONFERENCE
ON
COMPUTATIONAL FLUID FLOW
AND HEAT TRANSFER (CFFHT-2018)**

March 28–29, 2018

Organized by

**Department of Mathematics
Osmania University, Hyderabad-500007,
Telangana State, India**

**Sponsored by
UGC-DSA Phase-I**

Osmania University

Osmania University is a public state university in Hyderabad, India, founded in 1918 with the help of chief Architect of Mahbub Ali Khan Nawab Sarwar Jung. It was established and named after the seventh and last Nizam of Hyderabad, Nawab Mir Osman Ali Khan. It is the third oldest university in the southern India, and the first to be established in the erstwhile princely State of Hyderabad. It is the first Indian university to have Urdu as a medium of instruction. In 2012, the university was placed sixth among the nation's premier universities in Humanities, Sciences and Commerce stream, which secured the University with Potential for Excellence status.

The Main Campus is ranked tenth among state universities, as published by India Today. As of 2012, the university hosts 3,700 international students from more than 80 nations. The OU is one of the largest university systems in the subcontinent with over 300,000 students on its campuses and affiliated colleges. It is particularly known for its faculty of Engineering and Technology, Law, Arts, Sciences, Commerce and Management departments.

The main campus is a chief intellectual centre in Hyderabad, and its alumni and faculty members include many distinguished individuals, including former Prime Minister of India P. V. Narasimha Rao. The University is accredited by the NAAC with an 'A+' grade and conferred with the status of 'University with Potential for Excellence' by the UGC, New Delhi. This year the university is celebrating 100th anniversary. It has sustained an integrated development of all faculties and contributed to the academic, research, social and economic development across the globe.

Department of Mathematics

The Department of Mathematics is one of the few departments initiated at the time of inception of Osmania University. It has earned reputation for high level academic and research activities across the universities situated in and around the globe. The department of Mathematics specializes in Mathematics, Applied Mathematics and Computer Science. It offers M.Sc. and Ph.D. programmes. In recognition of its teaching and research activities the UGC has awarded DRS Phase-I for the period 1994-99, DRS Phase-II from 2002-07, UGC COSIST programme for the period 2002-07, DRS Phase-III for the period 2007-12 and upgraded to DSA Phase- I for the period 2013-18.

Call for Papers

Full papers for the conference should be sent to cffht2018@gmail.com written in English, prepared with MS word (Times New Roman) or LATEX format. The paper must contain a self-explanatory title, full names of authors, affiliations and email addresses. In case of multiple authors, please underline the name of presenting author. All the submitted papers will be peer reviewed and only authors of selected papers will be called for presentation. The conference papers presented will be published in SCOPUS/UGC recognized journal. The corresponding announcement in this regard will be communicated in due course. Hence interested research scholars can send their papers to the conference coordinator latest by 10th March, 2018 through mail.

Conference Theme

This conference is concerned with heat and mass transfer along with fluid flow, and other related processes that occur in the engineering disciplines, in the natural environment and in the living organisms etc. A key role, played by these processes, can be observed in a great variety of practical situations. The prediction of heat and mass transfer in fluid flow processes can be obtained by two main methods: experimental investigation and theoretical calculation. An experimental investigation involves the performance of the identical-full-scale equipment under the same conditions. Such full-scale tests are, in most cases, prohibitively expensive and often impossible. The alternative approach is to perform experiments theoretically. A theoretical prediction works out the consequences of a mathematical model, rather than those of an actual physical model.

Objectives

The International Conference on CFFHT-18 aims to bring together academicians, researchers and leading scientists for knowledge sharing and discuss recent developments in computational aspects of fluid dynamics problems. It also provides the premier interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges

encountered and the solutions adopted in the field of computational fluid flow and heat transfer problems.

Topics

Topics of the conferences, but not limited to, are the following:

- Computational Fluid Dynamics
- Fluid Mechanics, Heat Transfer and Mass Transfer
- Newtonian and Non-Newtonian fluid flows
- Bio-Mechanics
- Magneto Hydrodynamics
- Finite Element, Finite Difference Methods
- Nanofluids
- Numerical methods in fluid flow and heat transfer
- Transport phenomena in porous media
- Operator Theory & Functional Analysis

Registration Particulars

Registration Fee for participants from	
Industry	Rs.2,500
Academic Institutes	Rs.2,000
Research Scholars	Rs.1000
Foreign Delegates	USD 200
Foreign Students	USD 100

Chief Patron

Prof. S. Ramachandram,

Hon'ble Vice Chancellor, Osmania University

Patrons

Prof.Ch.Gopal Reddy, Registrar, Osmania University

Prof.T.Parthasarathy, Dean, Development and UGC Affairs

Prof.Ch.VenkataRamana Devi, Dean, Faculty of Science

Prof. Shivaraj, Principal, UCS

Prof.J. Anand Rao, Head, Department of Mathematics

Advisory Committee

Prof. Brestensky, Comenius University, Bratislava, Slovakia
Prof. Ishak Hashim, Universiti Kebangsaan Malaysia
Prof. S.V. Raghuramarao, Johannesburg, South Africa
Prof. P.G. Siddheshwar, Bangalore University
Prof. Y.N. Reddy, N.I.T., Warangal
Prof. P. R. Sharma, Jaipur, Rajasthan,
Prof. P. N. Pandey, University of Allahabad
Dr. Farzad Ismail, University Sains Malaysia
Prof. B.Sri Padmavati, HCU
Dr. Srivathsa, Addl. Director, DMRL DRDO, Hyderabad
Prof. Dr. P. Loganathan, Anna University, Chennai
Prof. M.K.Sarma, GJU, Hissar, Haryana
Prof. P.K.Singh, University of Allahabad
Prof. Sarvanan, Baratiyar University, Coimbatore
Prof. Ayub Khan, JNVU, Jodhpur
Prof. P. Ramesh Babu, UCE, OU
Prof. B. Patil Mallikarjun, Tumkur University
Prof. E. Keshava Reddy, JNTU, Ananthapur
Dr. Yogesh G. Bhumkar, IIT, Bhubaneswar
Dr. B.J. Gireesha, Kuvemp University, Shimoga
Dr. Mahanteesha Nandapanwar, Gulberga
Dr. Kanchana C, Harbin Institute of Technology, Shenzhen, China
Dr. Prasanna Kumar, Koppa
Dr. M. Ganeswara Reddy, ANU, Ongole

Convener

Prof. N. Kishan
Co-Ordinator, UGC-DSA Ph-I

Co-Conveners

Prof. B. Surender Reddy
Dr. Y. Rameshwar

Organizing Secretary:

Dr. Harisingh Naik

Coordinators

Dr. K. Phaneendra
Dr. Ch. Kishore Kumar

Treasurer

Dr. K. Sriram Reddy

Organizing Committee

Prof. M. Rangamma
Dr. C. Goverdhan
Dr. G. Kamala
Dr. K. Sriram Reddy
Dr. V. Dhanalaxmi
Dr. V. Kiran
Dr. V. Srinivas
Dr. Rama Krishna Goud
Dr. P. Lokapavani
Mrs. S. Renuka
Dr. Uma Dixit

Dr. Alka Mashalkar
Dr. M. Chenna Krishna Reddy
Dr. B. Krishna Reddy
Dr. S. Vijaya Lakshmi
Dr. Venkata Laxmi
Dr. V. Nagaraju
Dr. E. Rama
Dr. M. Sunitha
Dr. G. Upender Reddy
Dr. K. Ramesh Babu

Address for Correspondence & Communication

Convener, CFFHT-2018
Department of Mathematics
University College of Science
Osmania University, Hyderabad, TS, India.
Mail: cffht2018@gmail.com

Accommodation:

Accommodations will be arranged for outstation participants in the University Guest House.
